

# Campus Rallye Kickoff

12. Oct 2019

# Timetable

- 10:15 (Now) - Tutor Kickoff
- 11:00 - Start
- 14:00 - End
- 14:30 - Award Ceremony

# Important Notes

- Starting from 13:45 - Tell the groups to head back to the MI building
- Always monitor your Slack!!
- Please take photos of the event! We will provide you with a link to upload them.

# Tutor-sheet

# 1 - CD-Weitwurf

## General

The Rallye will take place from 11:00 to 14:00. During this time you have to be at the station assigned to you.

When a group arrives at your stop, briefly explain what they have to do. After the group has completed the station, enter the achieved score next to the group number in the attached list.

When the Rallye is over, enter the points of the groups in the Rallye tool (make sure to also enter the points in the list!).

The link to the tool as well as additional information about the process can be found on slack.

This note (all pages), as well as all the material we provided you with, has to be handed in at the information desk after the Rallye. Please make sure to leave your spot clean!

## Station Instruction

**Location:** In front of the MI building

**Materials:** ['Tape', '100 CDs']

**Setup:** The starting line and the target area should be 8m apart, and marked on the floor. The target area is quadratic, with 1.5m to 2m side length.

**Process:** Each group is allowed to throw 30 CDs, which have to land inside the target area.

## Scoring System

Each hit is 1 point, with a maximum of 10 points.

## Communication

For the communication between Orga and groups, we use Slack. Our Workspace is called <https://campusrallye2019.slack.com>

## Communication

To join the workspace, visit the following page: <https://bit.ly/2p417os>. Enter your (real) name (Important, because we want to know who is in the channel ;)). Then follow the Slack-Guide to finish the registration.

It is highly recommended that you install a slack client on your phone to be notified of important announcements.

If you have questions about your station or if you have problems, you can reach us there via the channel **rallye**. For God sakes PLEASE **always mention the number of the station!**

# What now?

1. Find your name on the lists
2. Wait until your station is called
3. Come to the front and sign the attendance list
4. Get your material box at the back exit of the lecture hall.
5. Grab a bottle of water (!!)
6. Find your spot on the campus and write a short message as soon as you're done with the setup
